Profile

As an emerging backend developer specializing in Django, I am eager to apply my foundational knowledge of Python and the Django framework to real-world projects. My current expertise includes crafting basic web applications, understanding database interactions, and learning best practices for code maintainability.

I am committed to professional growth and am seeking opportunities that will challenge me to evolve as a developer while contributing to a team's success.

Projects

Education

Bachelor of Computer Engineering

Islamic Azad University of Karaj

Sept. 24, 2022 - Still going through

Embarking on a higher education journey, I initially pursued Computer Science at university. However, I soon realized that this path did not align with my true aspirations, prompting me to take a break. During this period, I explored various opportunities, seeking clarity and purpose. Eventually, a renewed determination led me to return to academia, not merely to finish my studies but to aim for a PhD. Now, with a clear vision and goals, I am dedicated to overcoming the challenges of this rigorous academic pursuit.

Skills

- Django — 75%
- Python — 80%
- Linux — 65%
- Sql — 80%
- Git — 80%
- Docker — 60%
